"The pitcher that goes often to the rell is broken at last." There's a world f wisdom in that familiar proverb, and sound application of it to disease, specially to such familiar forms of dis-

icine "just as good" for weak lungs.

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Fellon, Kent Co, Delaware, "aud our hemily doctor said I had consumption. I thought I must die soon for I felt so bad. Had a had cough, spit blood, was very short of breath, in fact could hardly get my breath at all some times. I had pains in my chest and right lung, also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, and now I can do a small washing. I worked in the canning factory this fall, and I feel like a new person. I believe that the Lord and your medicine have saved my life. I was sick over two years. I took thirteen bottles of the 'Golden Medical Discovery,' and four vials of Dr. Pierce's Pellets."

### AID FOR CALEB POWERS

An Appeal to the Republicans of the United States by the Commercial Tribuue.

The case of Caleb Powers is the cause of civil liberty. To defeat the ends of Justice and to compass the conviction of men innocent of the murder of Senator William Goebel the Kentucky Legislature, in cool deliberation, set apart the enormous sum of \$100,000 for the purpose of aiding nen whose sole crime was that of daring to defeat the Democratic candidates for a State office in Kentucky in November, 1899 That assassing liberty, and the great cause exemplified in the person of Caleb Powers, should rally to its support and preservation every Republican in the land and every man to whom free intitution are more than a mere phrase.

It should be borne in mind that Kentucky was but repeating history when she defeated Senator Goebel and gave a Republican majority in 1899. At the election for State officers in 1895, Governor Bradley and the entire Republican ticket was elected, only the gerrymander of 1890 preventing the Republicans from controlling the General Assembly. Knowing the fact of Kentucky's Republicanism, the Goebel election law was introduced by Senator Goebel during the session prior to the election of 1899, and was passed. It met with a veto at the hands of Goevernor Bradley, but was passed over his obections and became a law. When Henry Watterson, in the Courier-Journal, said of it that "it left nothing to chance," he described its aims and its objects perfectly.

The entire election machinery was placed in the hands of three State Commissioners, elected by the Legislature which had enacted the Goebel election law, and the three were Democrats and partizans of William Goebel. In the hands of the three Commissioners was vested not only the power of appointing the county upon and determine all questions arising as to the ballots and the results, without appeal to any court.

Notwithstanding the tremendous power of the Goebel election machine in Kentucky, the Republican candidates on the State ticket of 1899 were home in this city, refused \$100,000 to -and then the infamy was begun.

promptly upheld. Then came the murder of William Goebel-a schocking crime, for which the guilty should be punished, but, in the name of God and in the name of humanity, the innocent should not be. Since that murder and since the appropriation of the \$100,000 for blood money, victims have been sought, not because of their guilt, but because of their Republicanism, and pecause their punishment is believed to be the surest means of forever preventing Republicans from daring to

ssert their majority in the State. The corruption and conviction fund of \$100,000 should be met by the Reublican party; it should be made an ssue whether Republicans are to be bounded to the gallows or to the penitentiary for life for daring to uphold Republicanism in Kentucky, for daring to insist that all men are equal fore the law, and for insisting that justice shall be denied to no man beuse of his political belief.

HEAD NOISES GEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lest y hearing in this ear entirely.

I underwent a treatment for estarrh, for three months, without any success, consulted a numer of physicians, among others, the most eminent car specialist of this city, who toff me that ally an operation could help me, and even that only temporarily, that the head noises would neen cease, but the hearing in the affected car would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and oday, after five weeks, my hearing in the diseased car has been entirely rectored. I thank you leartily and beg to remain very truly yours.
